

APPENDIX 1 TO ANNEX X

ARGENTINA – SCHEDULE OF SPECIFIC COMMITMENT

General conditions

This Schedule of Specific Commitments was elaborated taking into account the disciplines and principles of the GATS, which recognise, among other elements, the flexibility to adopt specific commitments that are differentiated in terms of sectors and modes of supply.

This Schedule of Specific Commitments shall not be interpreted as limitations of domestic regulation or to the introduction of new regulation with a view to achieving national policy objectives, in accordance with the Fourth Paragraph of the Preamble to the GATS and the main goals of the Agreement.

The Schedule of Specific Commitments is elaborated on the basis of a positive list approach and is identified in accordance with the classification list in Document MTN.GNS/W/120 of the WTO and corresponding CPC preliminary version numbers.

Where no reference is made to one or more specific sector or subsector, it should be interpreted that Argentina is not taking any commitments for that specific sector or sub-sector.

Specific conditions

Argentina reserves the right to use exchange rate regulations which are in conformity with the Articles of Agreement of the IMF.

Modes of supply: 1. Cross-border supply 2. Consumption abroad 3. Commercial presence 4. Presence of natural persons

I. HORIZONTAL COMMITMENTS			
ALL SERVICES INCLUDED IN THIS SCHEDULE	This schedule of specific commitments shall not be construed as imposing any obligation regarding subsidies or grants provided by Argentina, including loans, guarantees and insurance, neither in relation to taxation measures. The supply of certain services may depend on public concessions and the conditions thereby established. 3) Acquisition of land: unbound in frontier areas (150 km. in land frontier areas and 50 km. in coastal areas) Acquisition of rural land to foreigners is limited by law.	This schedule of specific commitments shall not be construed as imposing any obligation regarding subsidies or grants provided by Argentina, including loans, guarantees and insurance, neither in relation to taxation measures. All modes of supply: Argentina reserves the right to adopt or maintain any measure aimed at developing less developed regions, borders areas, or at reducing regional inequalities, as well as those necessary to ensure social inclusion and industrial development. 3) Acquisition in border areas ("security areas") limited to native Argentines. Foreign individuals and companies carrying on investment projects with a majority of Argentine personnel can acquire buildings or exploit authorisations and concessions in Security Areas, only with prior authorisation. The absolute majority of the directors of a juridical person must have permanent residence in Argentina.

MARITIME TRANSPORT

ARGENTINA

NOTE TO THE ARGENTINE SCHEDULE

Where road, rail, inland waterways and auxiliary services are not otherwise fully covered in this schedule, a multimodal transport operator shall have the ability to rent or lease trucks, railway carriages or barges, and related equipment to local companies for the purpose of inland forwarding of cargoes, or have access to, and use of, these forms of multimodal activities on reasonable and non-discriminatory terms and conditions for the purpose of carrying out multimodal transport operations. (“reasonable and non-discriminatory terms and conditions” means, for the purpose of multimodal transport operations, the ability of the multimodal transport operator to arrange for the conveyance of its merchandise on a timely basis, including priority over other merchandise which has entered the port at a later date.)

I. DEFINITIONS

1. Without prejudice to the scope of activities which may be considered as “cabotage” under the relevant national legislation, this schedule does not include “maritime cabotage services”, which are assumed to cover transportation of passengers or goods, including goods bound for foreign destinations, between a port located in Argentina and another port located in Argentina and traffic originating and terminating in the same port located in Argentina provided that this traffic remains within Argentina’s territorial waters.

2. “Other forms of commercial presence for the supply of international maritime transport services” means the ability for international maritime transport service suppliers of other State Parties to undertake locally all activities which are necessary for the supply to their customers of a partially or fully integrated transport service, within which the maritime transport constitutes a substantial element. (This commitment shall however not be construed as limiting in any manner the commitments undertaken under the cross-border mode of delivery).

These activities include, but are not limited to:

(a) marketing and sales of maritime transport and related services through direct contact with customers, from quotation to invoicing, these services being those operated or offered by the service supplier itself or by service suppliers with which the service seller has established standing business arrangements;

(b) the acquisition, on their own account or on behalf of their customers (and the resale to their customers) of any transport and related services, including inward transport services by any mode, particularly inland waterways, road and rail, necessary for the supply of the integrated services;

(c) the preparation of documentation concerning transport documents, customs documents, or other documents related to the origin and character of the goods transported;

(d) the provision of business information by any means, including computerised information systems and electronic data interchange (subject to Annex XIII (Telecommunication Services));

(e) the setting up of any business arrangements (including participation in the stock of a company) and the appointment of personnel recruited locally (or, in the case of foreign personnel, subject to the horizontal commitment on movement of personnel) with any locally established shipping agency;

(f) acting on behalf of the companies, organising the call of the ship or taking over cargoes when required.

3. “multimodal transport operators” means the person on whose behalf the bill of lading /multimodal transport document, or any other document evidencing a contract of multimodal carriage of goods, is issued and who is responsible for the carriage of goods pursuant to the contract of carriage.

4. “maritime cargo handling services” means activities exercised by stevedore companies, including terminal operators, but not including the direct activities of dockers, when this workforce is organised independently of the stevedoring or terminal operator companies. The activities covered include the organisation and supervision of:

- the loading/discharging of cargo to/from a ship;
- the lashing/unlashing of cargo;
- the reception/delivery and safekeeping of cargoes before shipment or after discharge.

5. “customs clearance services” (alternatively “customs house brokers’ services”) means activities consisting in carrying out on behalf of another State Party customs formalities concerning import, export or through transport of cargoes, whether this service is the main activity of the service provider or a usual complement of its main activity.

6. “container station and depot services” means activities consisting in storing containers, whether in port areas or inland, with a view to their stuffing/stripping, repairing and making them available for shipments.

7. “maritime agency services” means activities consisting in representing, within a given geographic area, as an agent the business interests of one or more shipping lines or shipping companies, for the following purposes:

- marketing and sales of maritime transport and related services, from quotation to invoicing, and issuance of bills of lading on behalf of the companies, acquisition and resale of the necessary related services, preparation of documentation, and provision of business information;
- acting on behalf of the companies organising the call of the ship or taking over cargoes when required.

8. “freight forwarding services” means the activity consisting of organising and monitoring shipment operations on behalf of shippers, through the acquisition of transport and related services, preparation of documentation and provision of business information
